

You're minutes away from an intelligent, secure system of record. Create a free account, choose how you'd like to buy, and set up your organization — Sibyl handles the classification and compliance work from your very first upload.

1

Sign up — free

No credit card

Head to sibyl.doc.ai and create your free account in seconds. Explore the platform and start organizing documents right away, then upgrade whenever you're ready.

2

Choose how to buy

When it's time to scale, purchase Sibyl Doc whichever way suits your organization:

OPTION A

Microsoft Commercial Marketplace

Buy through Microsoft to consolidate on your existing Azure billing and draw down your Microsoft commitment. Search for "Sibyl Doc," then subscribe.

OPTION B

Directly from sibyl.doc.ai

Purchase on the website with transparent, localized pricing and taxes calculated at checkout. Same platform, billed directly.

3

Set up your organization — quickly

As an admin, tailor Sibyl to how your team works. Most organizations are ready in minutes:

- Add your organization name & details
- Define your **taxonomy** — business functions & categories
- Set **security levels** & suitability flags
- Turn on **compliance parameters** (PII, Confidential, CUI)
- Invite teammates with **approval-gated** onboarding
- Assign roles & access permissions

4

Upload & go

Drag in your first documents from desktop or mobile. Sibyl automatically summarizes, classifies, and compliance-checks each file — then find anything instantly with AI search.

Tip: Install the desktop apps for Windows and macOS, and mobile for Android and iOS, to keep your records in sync everywhere your team works.
